THE VICTORIA PRESS AND GOVERNOR SEYMOUR.

In commenting upon Governor Seymour's speech, in opening the Legislative Council, on the 12th January 1865, the *Victoria Chronicle* said:—

"The address delivered by Governor Seymour at the opening of the Legislative Council of British Columbia on the 11th instant, and which appeared in our columns yesterday morning, is one of the most liberal and enlightened public documents which we have ever seen emanate from the mind or pen of any man occupying the position of Governor, and more particularly one possessing almost absolute powers. The wide contrast which is presented between this gentleman and his predecessor in office is as remarkable as it is gratifying to the people of the neighboring Colony, who are more immediately affected thereby. It is true that the circumstances are somewhat different under which Sir James Douglas and Governor Seymour administered the affairs of British Columbia—the latter gentleman having the advice and assistance of Legislative and Executive Councils to aid him in his work, while the former had to depend entirely upon the exercise of his own judgment in the performance of his onerous duties. But onerous as those duties were, Sir James Douglas never manifested the slightest desire to share either the honors or responsibilities of his position with any one, or to take counsel with the people. His power was absolute, and he possessed the will to exercise it. Governor Seymour's authority is really no less than his predecessor's, did he feel disposed to use it, but like a wise man and a prudent ruler, he prefers to delegate a large measure of it to the representatives of the people, but the public interests may thereby be better promoted. He tells the Council that 'the Royal Instructions leave me great discretionary powers, and I have availed myself of it to give greater legislative independence to the Council.' Among other important concessions which he has made is 'the right of members to introduce bills,' a right which he alone could exercise, did he feel disposed to use it. And he further informs the Council that 'the mode in which business shall be conducted between the Governor and the Council in their future position of distinct branches of the Legislature, is regulated with a view to your freedom of action, and you will find that nearly all the powers generally belonging to an elected Assembly are conferred on you.' Having thus defined the position and powers of the Council he proceeds to lay before them in detail the various subjects upon which they will be called to take action, every one of them having a vital bearing upon the general interests of the country. Had His Excellency been advised by an Executive Council, under the most liberal form of responsible government, in the drafting of the address under consideration, it is questionable whether it would have embraced so many truly liberal sentiments, or recommended the adoption of measures so practically useful and enlightened in principle. Many of them are of the highest importance, some of interest to ourselves, and others that our representatives would do well to study carefully and profit by the lessons they are calculated to impart."

The article from which the above extract is taken concludes as follows:—

"Those who may have indulged a hope that a union of the Colonies could be brought about, will now, we presume, relinquish the idea. The people of the neighboring Colony have signified to His Excellency their unwillingness to entertain any proposition favorable to Union; and His Excellency, while expressing regret that they should have so decided, accepts their decision, and so the matter ends. We hope to hear no more clamor here for Union; we can get along well enough without it, and to continue the agitation will only be to lower our own dignity as a people and incur the contempt of our neighbors."

If these passages, and many others of a kindred character, which appeared in the *Victoria papers* about the time Governor Seymour left for England, are compared with much that has recently emanated from the same source, with reference to the same subject, it will be seen how inconsistent, how utterly abandoned the press of Victoria has become. What has our Governor done to merit the coarse abuse so lavishly heaped upon him? He has simply aided in carrying

into effect the "Union Resolutions" of the Legislature of Vancouver Island. Of course, in the doing of it he has had to unmask no end of Victoria trickery. But he has done nothing more than it was his duty to do for the Colony committed to his care; and he has done nothing to which the people of Victoria could justly take exception, if they were honest and sincere in desiring union as they professed, upon conditions fair and just to both sections of the country. But it is just here the whole difficulty lies. They were not honest. They hoped, by some means or other, to secure terms favorable to their pet town, without reference to the general interests of the country, as a whole. In this they were most signally foiled by Governor Seymour. Hence the blistering abuse of which His Excellency is now the subject. Viewed from whatever stand-point, the Victoria politicians have made a sad mess, which they would do well now to wipe up and say no more about it.

NEW WESTMINSTER.

GENTLEMEN:

In reply to a numerous signed requisition, I now offer myself as a candidate for a seat in the next Legislative Council of this Colony, feeling sure my principles are so well known to you all that I can confidently expect the cordial support of my friends.

Having previously been a representative of the people, not only in the Legislative Council, but also on the Mining Board in Cariboo, my past experience will better enable me to fulfil the duties devolving upon your representative should you return me as your member. The following being the principal questions which will probably occupy the attention of the Council during the ensuing session I now beg to submit my views upon them to you.

Upon the question of Retrenchment, I am of opinion that a considerable reduction can be made in all branches of the Civil Service without affecting its efficiency.

I would favor a system of National Schools throughout the Colony.

I would support any measure having for its object the suppression of smuggling or sale of liquor to Indians.

With reference to the Agricultural interests of the Colony, I would advocate that free grants of land be made to bona fide settlers; that a tax be levied on all unimproved lands; that the vexed Indian land question should be at once adjusted; and that all Government Reserves should be thrown open. I would further advocate a tax on orchard produce, to protect the fruit growers of this Colony against those of Oregon and Washington Territory.

I don't think that Union with Vancouver Island will be beneficial to this Colony, but I am prepared to support the proposed Annexation Bill.

I am in favor of any Homestead Law that will assist the settler without being injurious to the creditor.

I advocate the total abolition of Tonnage Dues and the construction of Roads throughout settled districts in the Colony.

I will, if returned, support any Bills that may be brought forward, which I believe would tend to advance the interests of the Colony or those of my constituents.

I am, Gentlemen,

Your obedient servant,

A. W. S. BLACK.

TO THE ELECTORS OF THE

City and District of

NEW WESTMINSTER.

FELLOW COLONISTS,

A General Election is at hand, and you are called upon to select a man to represent your interests in the Legislative Council of the Colony. I have consented to offer myself as a candidate for your suffrages, your old and faithful representative having retired.

Having addressed you twice a week, during the past six years, through the columns of the *BRITISH COLUMBIAN* newspaper, upon nearly every important public question which has arisen, it will not be necessary for me now to enter into any lengthened exposition of my political views and principles; but inasmuch as it is expected of a candidate to enunciate his creed, in coming before the people for their suffrages, I shall touch briefly upon a few of the more prominent topics which occupy the popular mind at the present time. If you should do me the honor of electing me to represent this most important constituency in the Legislative Council, I shall support, amongst others, the following measures:

1. The question of union, so long and so variously advocated by the people of Victoria, and so uniformly spurned by the people of British Columbia, has recently assumed an entirely altered aspect. The Imperial Government has, as you are aware, decided to incorporate Vancouver Island with British Columbia, upon conditions already sufficiently known to you; provided the Legislatures of both Colonies should accept the new constitution. Although British Columbia has little to gain by such an acquisition I am disposed to view incorporation upon the terms proposed as perhaps the most ready and effective means for putting an end to agitations replete with injury to both Colonies.

2. Retrenchment in the Civil Service; for, although with the contemplated changes in the constitution and territorial boundaries of the colony the necessity for retrenchment may undergo some modification, still there would, I apprehend, be considerable room for a reduction in the expenses of some of the Government Departments.

3. Abolition of the Tonnage Dues, if not in whole, in so far as they apply to articles of Home product or manufacture, and a healthy protection for agriculturists near the seaboard against foreign competition.

4. A wholesome Homestead Law, carefully guarding the settler against oppression, on the one hand, and the creditor against fraud on the other.

5. Free grants of land to all actual settlers, and a tax upon wild land held purely for speculative purposes, the revenue derived from such tax to be expended in constructing roads in the districts where collected.

6. A speedy and final adjustment of the Indian land question, securing to the Native Tribes a reasonable amount of land for actual use, and no more; and the throwing open of the remainder, and of the numerous Government reserves created during the late Administration, to the actual settler.

7. The construction of main roads through all the settled districts, so as to bring the Agriculturists into connection with the markets of the colony.

8. More stringent measures for the suppression of the smuggling and illicit whisky trade so extensively carried on between Victoria and the Indians along our seaboard.

9. An immigration scheme by which families and farm laborers might be assisted in reaching a Colony peculiarly fitted to receive and employ them.

There are various other questions of great importance, such, for instance, as that of the Federation of all the British Possessions upon this continent, which it would be impossible, as it is unnecessary to discuss in the present address. I shall, however, be happy to avail myself of any opportunity which may present itself of meeting you for the purpose of enunciating my views more fully, and answering any questions which may suggest themselves.

I have only to say, in conclusion, that if an honest, and I may truly affirm, a laborious zeal for the interests of this my adopted country have given me any claim to your confidence and esteem the only return I ask is that you will, by your votes, place me in that position which of all others will enable me the most effectually to labor for the promotion of your best interests.

I have the honor to be,

Fellow Colonists,

Your most obed't servant,

JOHN ROBSON.

THE SEAT OF GOVERNMENT.

Fortunately for the interests of British Columbia, and for the future peace and wellbeing of these united Colonies, as a whole, the question of the seat of Government is no longer an open one—has wisely been placed beyond the influence of Victoria demagogism. An article in the *Chronicle*—a chameleon sheet, published in "the Venice of the Pacific," of Monday has afforded us some amusement. In this article, after dishing up the usual proportions of imbecile nonsense about New Westminster cliques, New Westminster stumps, and all those little choice ecoterias with which our contemporary usually garnishes his ravings upon the subject of union, the position is boldly assumed that the people of British Columbia, outside of New Westminster of course, are desirous for a union upon a basis more liberal to Vancouver Island, with the seat of Government fixed at Victoria! He says, respecting the people of this Colony: "They know that New Westminster can never be anything else in our time than a mere port of call for river navigation, that a railway by way of Butte Inlet would of itself reduce her to a salmon fishing station, and that the key to the navigation of the Pacific must be on this island, where commerce must consequently centralize." There is an old maxim, more pungent than polite, which says "a liar needs a good memory," a requisite which our contemporary appears to stand greatly in need of. Looking over his files we find a leading article, published on the 20th January, 1865, in which union is considered—and with an ability we look for in vain in the columns of the same paper nowadays—in all its bearings, and the following conclusion is arrived at: "To British Columbia union would be a great gain—to Vancouver Island a decided loss." The same writer says: "We have always looked upon the union agitation as so much political clap-trap, so far at least as some of our prominent politicians are concerned. These men know right well that no proposition with a view to union would be entertained for one single moment by the people of British Columbia that made the absolute integrity of our free trade policy a sine qua non. To suppose that they would acquiesce in any such arrangement, is to say the least, greatly to underestimate their common sense and capability to study their own interests." And again: "The second condition of a Union will be the removal of the seat of government from Victoria to New Westminster, with the whole official staff. Are the people of this city prepared to make such a sacrifice for any doubtful advantage that a union might give them? Such a change, we firmly believe, would effectually kill the place. We might then write 'lebabod' upon our door posts for our glory would forever have taken its departure. There are those who profess to believe that the removal of the seat of government from Victoria would be a matter of little moment compared with the advantages which we would derive from Union in a commercial point of view. Those advantages we fear would prove to be much more imaginary than real. Where the seat of government is, capital will concentrate—especially if its position is, like that of New Westminster, within reach of the largest class of sea-going vessels." It is such passages as these, and the one we publish on our first page—the list might be swollen ad infinitum, did space permit—that we would ask the public to compare with the more modern ravings of the *Chronicle* upon the subject of union and the seat of Government, and, in doing so they can only come to one common conclusion, viz: that our Victoria contemporary is as destitute of

honesty of purpose as he is deficient in consistency. When he says that the people of this colony are in favor of having the seat of Government established at Victoria he asserts a simple untruth, knowing it to be such. The thing is not only contrary to fact, but to common sense. There are doubtless Victorians, and Victoria emissaries, scattered through the interior of this Colony, who will eagerly re-echo the present sentiments of our contemporary. But it is too much to ask any man of common sense to believe that bona fide British Columbians would prefer to have the seat of Government transferred to the furthest limit of the consolidated territory, thereby removing it some 80 miles further away from them, rendering it necessary to make a sea voyage in order to transact business with any of the public departments! It is not difficult to conceive reasons why the seat of Government should be situated nearer to the centre of British Columbia, were no union taking place; but to say that it should be made less central by being removed to the extreme western limit of the territory is a proposition altogether too absurd to be entitled to serious consideration. It may do for the expiring cry of a defeated faction, nothing more. To use the language of our contemporary upon the same subject, "To suppose that 'they' (the people of British Columbia) would acquiesce in any such arrangement would be, to say the least, greatly to underestimate their common sense and capability to study their own interests." But, as we have said, this is no longer an open question, to be affected by anything our neighbors can possibly say or do. They freely conceded, both in the House and through the press, the right of the mainland to the capital, and to raise the question now is only to increase their own shame and intensify their own self-imposed confusion—to more thoroughly convince the Secretary of State for the Colonies that he has done right in making so cavalier a disposition of a troublesome, unreasonable, unprincipled, and mendacious set of people.

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such as
Tumors, Ulcers, Sores, Eruptions,
Pimples, Eruptions, Eruptions, Eruptions,
Blains, and all Skin Diseases.

J. C. AYER & CO., Lowell, Mass., June 1866.

GENUINE! I feel it my duty to ac-

knowledge what your Sarsaparilla has done for me.

Having inherited a scrofulous infection, I have suffered

from it in various ways for years. Sometimes it burst

out in Ulcers on my hands and arms; sometimes it

turned inward and distressed me at the stomach. Two

years ago it broke out on my head and covered my scalp

and ears with one sore which was painful and itchy

beyond description. I tried many medicines and several

physicians, but without much relief from any thing. In

fact, the disorder grew worse. At length I was rejoiced

to read in the *Boston Herald* that you had prepared

an alternative (Sarsaparilla), for I knew from your repu-

tation that anything you made must be good. I sent to

Cincinnati and got it, and used it till it cured me. I took

it as you advise, in small doses of a teaspoonful over a

month, and used about three bottles. New and healthy

skin soon began to form under the scab, which after a

while fell off. My skin is now clear, and I know by my

feelings that the disease has gone from my system. You

can well believe that I feel what I am saying when I tell

you that I hold you to be one of the sages of the age, and

remain ever gratefully.

Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Erysipelas, Tetter and Salt Rheum, Scalds, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th

Sept. 1866, that he has cured an inveterate case of

Dropsy, which threatened to terminate fatally, by the

persevering use of your Sarsaparilla, and also a dangerous

Malignant Erysipelas by large doses of the same; says

he cures the common Eruptions by it constantly.

Bronchitis, Croup or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bot-

tles of your Sarsaparilla cured me of a Gout—a hide-

ous swelling on the neck, which I had suffered from

over two years."

Leucorrhoea or Whites, Ovarian Tumor, Uterine Ulceration.

Dr. J. B. S. Channing of New York City, writes: "I

most cheerfully comply with the request of your agent in

the numerous complaints for which we employ your

Sarsaparilla, and especially in Female Diseases of the

Scrofulous character. I have cured many inveterate

cases of Leucorrhoea by it, and some where the com-

plaint was caused by ulceration of the uterus. The ulcer-

ation was soon cured, and the patient within my knowl-

edge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dan-

gerous ovarian tumor of one of our females in my fam-

ily had defied all the remedies we could employ, but at

length been completely cured by your Extract of Sar-

saparilla. Our physician thought nothing but extirpa-

tion could afford relief, but he advised the trial of your

Sarsaparilla as the last resort before cutting, and it

proving successful, we are very glad, and it is a great

remedy; consequently, these truly remarkable results

will have not surprised us.

Fraternally yours, G. V. LAMMER, M. D.

WEDNESDAY, SEPTEMBER 26, 1866.

FROM THE INTERIOR.

The steamers Lillooet and Onward arrived from Yale yesterday, bringing a Cariboo Express and mail, and a number of passengers. Amongst the passengers by the latter steamer were His Excellency the Administrator of the Government and suite. We have Cariboo papers of the 17th, and Yale papers of the 24th, both, however, singularly destitute of mining intelligence. The election in Cariboo was attracting attention, but no candidates appear to have been regularly before the electors. The Mining Board was to meet on the 18th for the purpose of nominating a candidate. We learn through private sources that A. R. Robertson, Esq., Barrister, is likely to be the member for Cariboo. Mr. Robertson is a young man of no ordinary parts, and we should be rejoiced to see him in the House.

The Sentinel is informed by Messrs. Meacham & Co., proprietors of the steam sawmill, on Williams Creek, that they have submitted to the Government a proposition to establish a test quartz mill, to be run in connection with their work; and it is understood that, although the proposition is a most liberal one, the Government manifests no disposition to come to a speedy arrangement. If the proposition thus made is really one which could fairly be entertained by the Government, we trust the seeming tardiness is solely to be attributed to the absence from the seat of Government of the Administrator, and now that he has returned, and can confer with his Executive, the matter will receive that immediate and earnest attention to which its importance justly entitles it.

The same journal mentions a seemingly well directed effort to construct a "bulkhead" at the rear of Barkerville to prevent a recurrence of those freshets to which that town has been subject. The necessary funds have been liberally subscribed by the people of the town, and the work is said to be progressing rapidly under the able superintendence of Mr. Robert Spence.

Mining on Williams Creek was almost at a stand for want of water. On Grange Creek the scarcity of water was less felt. The Heron Co., on this creek, washed up on Tuesday, 553oz; Wednesday, 293oz; Thursday, 223oz; Friday, 923oz; Saturday, 313oz; Sunday, 483oz; total for week, 2823oz. Several other companies were doing well, the Discovery Co. washing up on Tuesday, 125oz.

On Cedar Creek there are 65 miners at work, and those claims that have started washing are doing extremely well. A party who started up the lake to prospect had returned, laid in five weeks provisions and a whip-saw, nails, &c., and set out again. They declined to give any definite information as to the result of the expedition, but their subsequent conduct is looked upon as a proof that important discoveries have been made. The distance from Cedar Creek to the scene of their operations is believed to be about 100 miles.

The Yale Tribune says there were 143 votes cast at Yale and Lytton for Mr. Wallace, who has been elected without opposition.

The same paper complains of the want of a court-house at Yale. We must confess our surprise that Government should have so long delayed that necessary work. The same paper alludes to Mr. Cornwall, ex-member for that district, in terms of praise, and expresses a hope that he will be returned for some district in the Interior.

The same paper says Bishop Hills will preach at St. John's Church, in Yale, on Sunday, on behalf of the fund for repairing the parsonage.

The same paper announces that it will issue its last number in Yale for the present season on the 8th proximo.

SERIOUS ACCIDENT.—On Monday morning, Mr. Isaac Steadman, engaged as sawyer at the B. C. Mill Co.'s mill in this city, while in the act of squaring a log, met with an accident which well-nigh put a period to his existence. While in the act of using the gauging-stick one end of it came in contact with the saw while in motion, driving the other end of it through the groin, laying bare the femoral artery, and inflicting a most serious wound. Fortunately the artery was not ruptured, or the result would most certainly have been fatal. Dr. Beck was immediately summoned, and dressed the wound, and the injured man is now in a fair way of recovery, should inflammation not supervene.

Municipal Council.

The Council met pursuant to adjournment on Monday evening. Present: The President, and Councillors Armstrong, Ferris, Clute, McMillan, Withrow, and Ashwell. Absent: Councillors Wintemute, Rylatt and Cunningham.

Minutes of previous meeting read and confirmed.

The By-law for levying a tax on rateable property was read a second time.

On motion the Council went into committee of the whole on the Assessment Roll, which, after having been amended, was finally adopted.

On motion of Coun. Ferris, seconded by Coun. Clute, it was resolved that the Assessment Roll be open to the inspection of the ratepayers, at the Clerk's office, until the 10th day of October next. On motion the Council adjourned till Monday evening next, at 7 o'clock.

FROM VICTORIA.

The steamer Enterprise, Capt. Swanson arrived from Victoria last evening. Amongst the passengers we observed the Bishop of Columbia, who proceeds to Yale to-day. We have files of Victoria papers before us. The Chronicle, on finding that the Union Bill has been passed in an amended form, which renders it unnecessary to submit it to the Legislature of Vancouver Island, starts off with a dismal howl, and says that political agitation is at an end. If this be so our contemporary's occupation is assuredly gone.

It appears that Captain Lang, the popular local Manager of the Bank of British Columbia, has resigned, or been removed, it does not very clearly appear which. It is stated that he goes to take charge of the San Francisco branch. Great regret is felt in Victoria at the change. Mr. Ward will succeed him.

The Chronicle thinks it highly probable that Mr. W. A. G. Young and Mr. Watson, at present Colonial Secretary and Treasurer of Vancouver Island, will fill similar appointments in British Columbia, under the new constitution. It is up to all unlikely, as it is understood Mr. Birch will return to England on the arrival of Governor Seymour, and it is no secret that the person who at present fills the position of Treasurer is notoriously unfit, and will be re-shipped to England the first opportunity that offers. Mr. Young will make an excellent Colonial Secretary, if he can succeed in leaving behind him his Victoria proclivities, and from all we can learn Mr. Watson will make a popular and good Treasurer. We do not feel in the least disposed to raise the slightest objection to these two Vancouver officials.

The Chronicle says that the immediate prospect of a Customs Tariff has had the effect of raising the price of everything.

RETURN OF HIS EXCELLENCY.—Yesterday His Excellency the Administrator of the Government, and suite, returned to the seat of Government, after an absence of over nine weeks, during which he has made a very extended tour, visiting the various mining camps of Cariboo, including the newly-discovered diggings on Canyon Creek. He has also visited the Big Bend mines, and has had interviews with several of the native tribes in the Thompson River country, with a view to an adjustment of the Indian reserves, but with what result we are not in a position to state. It is by thus becoming personally familiar with every section of the country that a ruler can best fit himself for realizing the wants and promoting the interests of the scattered inhabitants. We are gratified to learn that His Excellency has returned in good health, and has nowhere met with that sort of reception predicted for him by the press of Victoria, but has everywhere been received as befits the Representative of our Queen.

FROM BIG BEND.—Mr. E. B. Holt, of this city, arrived from Big Bend yesterday, having left the diggings on Monday week. Mr. Holt brings no mining news of special interest. Considerable gold is being taken out, but matters generally are not very lively. The discovery of an extensive and rich quartz ledge on the south-east side of the Columbia River, at the Steamboat Landing, was reported. The ledge was traced a distance of a mile, and is said to be well defined. The discovery caused considerable excitement. Mr. Holt informs us that Mr. Ladner, of the well known firm of Smith & Ladner, is almost certain to be elected for the District of Columbia. Mr. Ladner's extensive experience in this Colony, and especially in that part of it, presentment is quite a qualification for the position, and we should be glad to see him elected.

MAMMOTH VEGETABLES.—Mr. Allard, of Langley, brought down six onions yesterday, which weighed eight pounds. He has three-quarters of an acre of onions, of which each onion will average one pound! We alluded, a few days ago, to his mammoth cauliflower, we have to thank him for a sackful of that delicious vegetable.

THE MAIL STEAMER.—A telegram received in this city yesterday, states that the Active will sail from San Francisco this (Wednesday) morning. She will, therefore, be due here on Monday or Tuesday next.

THE BRITISH COLUMBIAN.

TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EASTERN STATES.

CHICAGO, Sept. 21.—By express orders from the President the clerks of the White House are forbidden to furnish the press with lists of appointments.

NEW YORK, Sept. 22.—The Herald's Montreal dispatch says: Gen. Monck left this city to-day, after receiving marked attention from the military authorities.

It is reported that the Fenian force is gathering on the Vermont border of this Province, and there is considerable excitement in Huntington, Canada East.

CHICAGO, Sept. 22.—A Washington special says Secretary Seward is rapidly sailing, and it is feared he cannot survive much longer.

WASHINGTON, Sept. 22.—The President has decided that, in consequence of pressure of public business, he will hereafter be obliged to decline receiving any committees or delegations whose object is to present programmes for removals and appointments to office.

NEW YORK, Sept. 24th.—The Herald urges Southern Governors to convene their Legislatures and promptly accept constitutional amendment because Northern elections will be overwhelmingly in its favor, and because it is just and right in itself. It also urges on President Johnson full reconstruction of his Cabinet, saying the present members are either actually or passively committed to his views as to Southern policy, which does not represent real majority of people. It also demands of the President a cordial support of the ideas of Congress on the subject. Times, of this morning, approves each of the provisions of the Constitutional amendment and says there is not the slightest difference of opinion so far as we are aware, in the union party, and very little anywhere else, as to the wisdom of ratifying the amendment proposed by Congress.

WASHINGTON, Sept. 24.—Secretary Seward was at the State Department to-day attending to his official duties.

EUROPEAN.

BERLIN, Sept. 21.—The Prussian army returning from the war, made a grand entry into the national capital to-day, amid great rejoicings.

PARIS, Sept. 21.—La France announces that it has copies of the Saxon treaty, and that by one of its provisions King John is to abdicate in favor of his son.

LIVERPOOL, Sept. 22, noon.—The steamship Persia, which sails from here at noon for New York, takes out £3,000 in gold on American account.

Quite a number of Fenians were arrested here to-day. Arms and munitions of war, supposed to belong to the Brotherhood, were found secreted in various parts of the city, and were promptly seized.

LONDON, Sept. 22d, noon.—Money quiet and steady. Consols 89½, five-twenty 72½.

LIVERPOOL, Sept. 22d.—Breadstuffs dearer.

PARIS, Sept. 22d.—The Emperor Napoleon is at Biarritz. It is stated that the Empress Eugenie will shortly repair to Rome to condole with the Holy Father. There is an apparently well-grounded rumor that M. Laville will retain the French foreign office.

DRESDEN, Sept. 22d.—The Gazette of to-day, in an editorial, says the announcement of the conclusion of peace between Prussia and Saxony was premature. It admits, however, that good progress is being made in that direction.

FRANKFURT-ON-MAIN, Sept. 22d.—A memorial is being extensively signed in favor of independence at Frankfurt.

CANADA.
TORONTO, C. W., Sept. 21.—It is announced that the Bank of British North America will protest letters of credit from English bankers on the bank of Upper Canada. The directors of the Bank of Upper Canada have not yet decided what course to pursue; but it is thought the concern will be wound up by the assignees. Bills of the suspended bank are selling at 30 per cent. discount.

TORONTO, C. W., Sept. 22.—This evening's telegraph says the Government circular issued to County Attorneys and Police Magistrates advises the seizure of arms in the possession of parties whom they consider dangerous to the peace, and suggesting that all persons known or suspected of having connection with the Fenians be vigorously prosecuted.

MEXICO.
NEW YORK, Sept. 23.—The Herald's Vera Cruz correspondent of the 11th states that there are no indications of the withdrawal of the French troops. The 81st French regiment was expected to leave for France on the 10th ult.; only one battalion came down from the capital. French arms were being expected in large amounts to increase the strength of the Imperial army. Gen. Urquiza proceeds to Europe on a mission, and will then accompany the Empress to Mexico. Maximilian has also appointed a minister to the Pope.

WASHINGTON, Sept. 23.—Mr. Romero has received dispatches from Vera Cruz of the 12th, containing most gloomy information from Maximilian and the French. President Juarez and his Cabinet were making preparations to remove to Monterey, to establish the Liberal Government.

CALIFORNIA.

SAN FRANCISCO, Sept. 22.—Arrived—steamer Sierra Nevada, 54 hours from Columbia river; bark Ethan Allen, 22½ days from Honolulu.

Sailed—brig Franklin Adams, Victoria. SAN FRANCISCO, Sept. 24.—The steamship Sacramento was telegraphed at about 10 o'clock to-day; at 10 minutes past 2 she rounded Fort Point, followed a few minutes later by the U. S. steamer Shubrick, and received a salute of 21 guns from the Fort; coming up the harbor she was saluted at Black Point; and a similar salute was given as she passed the Vanderbilt, which hoisted the Hawaiian flag at her foremast head. The Sacramento attracted unusual attention as she came up the Bay, from the fact of her flying an enormous flag at her mainmast head, the royal standard of Hawaii, made of royal dimensions, about the size of a first class clipper ship's foresail.

The Queen was officially received in an unostentatious manner by Dr. C. M. Hitchcock, American Consul to the Sandwich Islands. Elegant apartments, profusely decorated with rare and beautiful flowers, have been arranged for her at the Occidental Hotel, and the Hawaiian flag hoisted over that building.

BRITISH COLUMBIA.
QUEBEC, Sept. 22.—Thermometer 50; fine; no wind.

LYTTON, Sept. 22.—Weather cloudy, calm and cool.

HOPE, Sept. 22.—Thermometer 52; weather cloudy. A lot of snow fell on the mountains yesterday.

83-MILE HOUSE, Sept. 22.—Thermometer 44; cloudy and raining.

CLINTON, Sept. 22.—Weather clear; thermometer 44.

YALE, Sept. 22.—Weather cloudy, but appearance of fine day; thermometer 66.

YALE, Sept. 25.—Weather cool and cloudy; thermometer 58.

CLINTON, Sept. 25.—Weather cloudy and cold; wind south-west; thermometer 46.

HOPE, Sept. 25.—Weather thick with a light rain; wind south; therm. 56.

From a person lately arrived from the Okanagan and Similkameen country, we gather the following: At the Okanagan Mission the grasshoppers had again destroyed most of the crops. This is the third year of this plague, and the farmers hope they have seen the last of them.

There are about 1500 sheep, kept by a Frenchman at the Mission, and all doing well.

The Walla Walla Indians had made a raid on the Shuswaps—result not known. It is about some old dispute.

The cattle throughout the country look well. Mr. Harper passed the Custom-house with 550 head on his way to Kamloops. Messrs. Reece & Co. had about 250 head at Allison's, on the Similkameen. They are now on the way to Hope. They look fine, and people may look out for excellent beef.

On the Similkameen some 40 to 50 Chinamen were working and making good wages. Mr. Kruger had turned the Similkameen, and was taking out big pay.

It was reported by the Indians that the Indian who killed Morgan, near Soda Creek, was skulking about the Okanagan Lake, threatening to kill every white man or Indian he should meet. The Indians were in great fear of him, as they consider him bullet-proof.

Several large pack trains were met on their way to Kootenay.

Mr. Allison had discovered a new pass which avoids the Hope mountain, and does not exceed the altitude of the Lake House. The distance would be about the same as the present trail.

ENGLISH MAIL.

The mail brought up from San Francisco by H. M. Ship Sparrowhawk, and brought here on Monday night by the dispatch boat Leviathan, places us in possession of English papers of the 15th and Canadian papers of the 18th August.

The Illustrated London News says: "The Elcho shield, won by the Scottish eight at Wimbledon, was placed, last Saturday, in the Parliament House at Edinburgh, amidst considerable demonstrations of enthusiasm on the part of the volunteers." The health of H.R.H. Prince Leopold, son of Queen Victoria, necessitates the constant attendance of a medical adviser. An extensive discovery of Fenian ammunition was made in Old Francis street, Limerick. Six thousand rounds of ball cartridge, and a large quantity of powder, bullets, and materials for making cartridges were found. Mr. Buxton moved a resolution in the House of Commons deploring the excessive punishments which followed the suppression of the Jamaica disturbances, and approving of the dismissal of Mr. Eyre. The resolution was passed. Jamaica was threatened with fresh disturbances; but Governor Storks said he had the means of meeting any emergency likely to arise. In Canada three notables, Queen Emma, of the Sandwich Islands, Mr. Peabody, the wealthy and philanthropic American, and General Meade, were being more or less lionized at Quebec and elsewhere. The Toronto Globe is urging the Government to be prepared for another Fenian raid which was considered imminent. Sweeney and other Fenian notables were at St. Albans, and made no secret of their intention to make a raid into Canada East. The Globe says: "The Governor-General recently

telegraphed to England for 30,000 Enfield breech-loaders, to replace the muzzle-loaders in the hands of the regulars at present serving in North America, and to re-arm a portion of the volunteer force." The Hon. Mr. Galt, Finance Minister, had resigned, ostensibly in consequence of a School Bill, to protect the interests of the Protestants of Lower Canada, and to which he stood pledged, was withdrawn; but the real ground of his withdrawal from the Government is believed to be the complication and failure of his financial policy. Lord Monck made a significant speech in which he intimated that the Canadian Parliament had probably met for the last time under the old act.

COL. BOOKER'S CASE.—The report of the proceedings of the Court of Enquiry into Col. Booker's conduct at the engagement at Lime Ridge is published. The Court are of opinion that there is not the slightest foundation for the imputations cast upon the personal courage of Col. Booker. They admit that his force was under great disadvantage from having neither cavalry, artillery, nor commissariat arrangements, and from his being without any staff assistance, or mounted officer to transmit his instructions. The Court are of opinion that the direction of the attack was well and skilfully managed. Reference is then made to the alarm of cavalry. Col. Booker was deceived by the cry, and gave the order to reform, but without success—the men becoming mingled together. The order was then given to retire.—Canadian Paper.

RENDER UNTO CÆSAR THE THINGS THAT ARE CÆSAR'S.

MR. EDITOR,—I am an Englishman, and, as such, always desire to see fair play. In your paper, a short time ago, you rather more than intimated that Doctor Black did nothing, while representing Cariboo West in the Legislative Council, and, with a show of frankness, you referred your readers to the records of the House in corroboration of what you said. I have taken the trouble to examine these records and I find that Doctor Black did a good deal, how much I will, with your permission, tell the public, so that they may be in a position to judge for themselves. On the 29th February the Doctor took the oath and his seat. On the 1st March he gave notice of motion. On the following day, pursuant to that notice he asked the Attorney-General if the Gold Commissioner at Williams Creek had been provided with an assistant clerk to act as Registrar; also, if all monies, fees, etc., collected in the District of Cariboo were to be expended in said district for the construction of roads, bridges, etc.; also, under what conditions Crown Lots were sold at Cariboo.

On the 30th of March Dr. Black presented a petition from the inhabitants of Williams Lake District, praying for the construction of roads through their settlement. On the following Monday the petition got a "six month's hoist."

On the 22d April Dr. Black seconded Mr. Orr's resolution for the appointment of a committee to consider the Ordinance respecting the issue of Bank Notes. On the same day he gave notice of motion. On the 25th pursuant to said notice, he asked the Colonial Secretary if any official information had been received respecting irregularities said to have been committed by some Government Officials at Richfield.

On the 2d May Dr. Black gave notice of motion. On the following day he withdrew his motion by permission of the Council (1).

On the 3d May Dr. Black presented a petition from Mr. George Tranfield (11) On the same day he seconded Mr. Orr's anti-union resolution, a resolution which was carried, and the importance of which even you, Mr. Editor, will admit.

In the face of the foregoing list was it fair or generous of you to intimate that Doctor Black did nothing while in the House?

JUSTICE.

New Westminster, Sept. 22d, 1866.
[When we "intimated that Dr. Black did nothing, while in the House," we did not mean that he did not attempt to do anything, or that he did not appear on the minutes, as the mover or seconder of a resolution. We meant that he did not originate, introduce or carry through the House any public measure. To give a notice of motion, to ask a question, to become the medium of introducing a petition, to move or second a resolution, prepared and put into his hands by others, surely cannot be accepted as evidence of legislative ability. All that a wooden image could perform, if properly moved by wires. It would appear that the Doctor was as unfortunate with his notices of motion as he was with his petitions. It is questionable whether the petition of a certain notorious Fishmonger involved any question of public interest. The one from Williams Lake probably did, and it is a matter of regret that it did not fall into more successful hands. Justice might have swelled his "list" by telling the public that his protegee moved an adjournment once or twice, and sat in the Chair, in Committee of the Whole. He might also, were he as fond of "fair-play" as he professes to be, have mentioned that the Doctor pocketed \$200 of the people's money, for the wonderful services above recorded. The Doctor may well exclaim "save me from my friends."—Ed.]

HOLLOWAY'S OINTMENT.—Turn which way you will, go where you please, persons will be found who have a ready word of praise for this Ointment. For chaps, chafes, scalds, bruises, and sprains it is an invaluable remedy; for bad legs, caused by accident or cold, it may be confidently relied upon for effecting a sound and permanent cure. In cases of swelled ankles, erysipelas, gout and rheumatism, Holloway's Ointment gives the greatest comfort by reducing the inflammation, cooling the blood, soothing the nerves, adjusting the circulation, and expelling the impurities. This Ointment should have a place in every nursery. It will cure the long list of skin affections which originate in childhood and gain strength with the child's growth.

TOYS AND FANCY GOODS.—G. C. Clark son & Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and natty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf.

REMOVAL.—Mr. Wm. Woodman has removed his boot and shoe shop to Holt's corner, in the premises recently occupied by I. Lyons, watchmaker, where he will be happy to receive his old customers. *
